Meetings are held monthly. A short agenda of club related business and plans are discussed, then members may bring up new items of interest. Afterwards, there is a casual get together to chat and catch up. Members are encouraged to bring snacks or beverages to share. Members do not have to attend meetings to participate in club activities, but without member support to organize and run the club it can not continue to exist. If you are interested in hosting a meeting please let us know. Potential new members are always welcomed at meetings.
